

The Nacitone Watershed Steering Committee presents....

What's happening in your backyard?

What we think we know so far about the Nacitone watersheds.

Saturday, February 16, 2008

6:00pm at the Heritage Ranch Senior Center

Do any of these issues affect or concern you?

- Destruction of cultural resources
- Fire: managed and accidental
- Grazing lands management or lack of grazing
- Illegal activities (meth labs, vandalism)
- Impacts of development
- Invasive plant and animal species
- Loss of oak woodlands; species habitat
- Mercury in sediments of Nacimientto reservoir
- Military activities
- Lack of coordination/communication between counties, agencies
- Sedimentation of streams and reservoirs
- Soil erosion, unstable banks along roads, streams, reservoirs
- Trash and debris along roads, in streams, reservoirs

Come and learn what we know,

Share what you know, and

Help develop goals and objectives to:

Protect water quality and watershed uses for all stakeholders

(Part of the mission statement of the Nacitone Watershed Steering Committee)
